For more than twelve years the Roger Federer Foundation has been engaging in education programs for children living in poverty in Africa and Switzerland. It only works with carefully selected local organizations in long-term partnerships and seeks to bring about systemic change and have a sustainable impact. The Foundation aims therefore to enable and empower the local population to assume responsibility for finding solutions to problems while also determining the content, organization and finances of these solutions. There are currently 15 programs in 2016 running in Botswana, Malawi, Namibia, South Africa, Zambia, Zimbabwe and in Switzerland for a total of approximately CHF 6.5 million reaching 275,000 children.
